

TINCORN HILL QUARRY

THE DEVELOPMENT PROPOSAL

HOURS OF OPERATION

No changes will be sought to the hours of operations for mineral extraction and despatch granted through planning permission 19/0230/PP which are:

For Mineral Operations
Monday – Friday: 07:30 - 18:00
Saturday: 08:00 - 12:00

For Loading and Despatch
Monday - Friday: 07:00 - 18:00
Saturday: 08:00 - 12:00

SITE ACCESS

The site is accessed from the B743. There are agreed routes for HGV traffic accessing the site, the main one being via the B743 and B713 providing access to the A76 trunk road. It is proposed that these routes are maintained for the proposal. Breedon contributes an annual sum toward the maintenance of these roads.

RESTORATION

Restoration would be primarily to a waterbody and designed to maximise biodiversity within the site and its surroundings including the provision of shallow margins on the edges of the waterbody. Surrounding the waterbody, the restoration will target native woodland planting and incorporate local priority habitats including acid grassland/heath.

DURATION OF OPERATIONS

The proposals will extend operations by approximately 50 years from now (2073).
